

Continuity of Care Program

Blue Shield of California provides continuity of care services to our plan members. As of January 1, 2018, eligibility limitations apply to new enrollees of a Blue Shield Individual and Family Plan (IFP). You can call Member Services at the phone number on the back of your Blue Shield member ID card for more information.

Maintaining continuity of care

Blue Shield recognizes the importance of maintaining a strong doctor-patient relationship when you change healthcare plans. This is especially true if you have a serious medical condition. That is why we created the Continuity of Care Program. This program allows newly enrolled members to complete their care with their current healthcare provider or to transition smoothly from their current healthcare provider to a Blue Shield network provider.

Continuity of care for newly enrolled members

If you or your covered dependents are new enrollees in a Blue Shield plan and are currently receiving treatment for a qualifying medical condition from a healthcare provider who does not belong to your health plan's provider network, you may be eligible to complete treatment of your condition with your current provider. Please note, however, that the Continuity of Care Program is not available to all new enrollees of Blue Shield plans.

Who is eligible?

You may be eligible to receive continuity of care services if you meet the following requirements:

- You are a Blue Shield plan subscriber or a covered dependent receiving treatment for a qualifying medical

condition with a non-network provider and enrolled in a plan that offers no non-network benefits, or

- You are a Blue Shield member who had continuous health coverage prior to enrolling with Blue Shield because the health plan withdrew from the health plan market.

In order for Blue Shield to approve continuity of care for you or your dependents, your non-network provider of services must be willing to accept Blue Shield's network (contracted) rate, collect only the applicable co-payments or coinsurance, and not balance-bill you.

Who is not eligible?

You are not eligible for continuity of care if any of the following descriptions apply to you:

- You are a new Blue Shield subscriber or dependent who has had no previous continuous health plan coverage.
- You are a member who has not established treatment with a non-network provider prior to your date of enrollment with Blue Shield.
- You are a member who does not have one of the qualifying medical conditions described below.
- You are a member whose non-network provider is not willing to accept Blue Shield's network contracted rate.

Examples of conditions and situations that may qualify for completion of care with your current provider who does not belong to your Blue Shield health plan include but are not limited to:

- An acute condition requiring prompt medical attention and that has a limited duration (not to exceed the acute phase of the condition when care can be safely transferred to a provider contracting with your Blue Shield of California health plan).
- A serious chronic condition, for the period of time necessary to complete a course of treatment and to arrange for safe transfer of care to a provider contracting with your Blue Shield of California health plan (but not to exceed 12 months from the effective date of coverage).
- Pregnancy, including immediate postpartum period.
- Care for a child who is newborn to 36 months old (not to exceed 12 months from effective date of coverage).
- A surgery or other treatment that was previously recommended and documented by the provider to take place within 180 days of the effective date of coverage and which is authorized by Blue Shield.
- Terminal illness, which has the high probability of causing death within one year or less; this is covered for the duration of the terminal illness.

Mental health services

Continuity of care is also available if you are currently receiving services for a serious mental health condition. To obtain further information, please contact our mental health service administrator directly by calling their number on the back of your Blue Shield member ID card.

Dental services

If you are currently receiving services for a serious dental condition and you or your employer has purchased additional dental plan benefits from Blue Shield, you may be eligible to continue care with your current dental provider. To obtain further information, please contact our dental plan administrator, Dental Benefit Providers of California Inc., directly, by calling the customer service number on the back of your Blue Shield member ID card.

How the Continuity of Care Program works

When you enroll in a Blue Shield health benefit plan, you may be eligible to complete your care with your current provider who does not belong to the provider network for your plan.

If you believe you qualify, complete Blue Shield's Request for Continuity of Care Services Form. You should mail or fax this form to the address or fax number on the form for review at least 30 days before your plan takes effect, or as soon as you become aware of the need for continuity of care services. We will send you a letter describing how we have responded to your request to complete treatment with your current provider.

Non-network providers

If your treating physician or other healthcare provider (such as a hospital) does not belong to the provider network for your health plan, our Customer Service department will send your Request for Continuity of Care Services Form to our Medical Care Solutions department.

We will then contact your provider of services, who must agree to certain conditions, which include agreeing on terms and methods of reimbursement that are like those used by the plan for participating providers in the same

pricing region as permitted by state law. If the provider does not agree, then your request for completion of care with the non-network provider will be denied. In those instances, Medical Care Solutions will assist with the transfer of your medical care to a physician contracted with the provider network for your benefit plan, ensuring that reasonable consideration is given to the potential effects that changing provider(s) may have on your medical condition. If the provider agrees to the required conditions, Blue Shield will authorize the completion of your care and notify you in writing of any special provisions and/or limitations.

Services covered under the Continuity of Care Program do not include benefits that are not otherwise covered under the terms and conditions of your Blue Shield of California plan contract or policy.

Continuity of care for current Blue Shield members

Who is eligible?

You may be eligible to receive continuity of care services if you meet the following requirements:

- You are a current subscriber or enrolled dependent and are currently receiving treatment for a qualifying medical condition from a provider who is no longer in your health plan's network.
- You are a member whose employer group makes a plan change and the group no longer offers coverage that would allow you to complete your current course of treatment with a network provider.

For Blue Shield to approve continuity of care for you or your dependent, your non-network provider of services must be willing to accept Blue Shield's network (contracted) rate, collect only the

applicable co-payments or coinsurance, and not balance-bill you.

Who is not eligible?

You are not eligible for continuity of care if any of the following descriptions apply to you:

- As a current Blue Shield member, you voluntarily change your plan and your current provider is not part of the new plan's network.
- You are a member who does not have one of the qualifying medical conditions described below.
- You are a member who is enrolled in a self-funded group, unless continuity of care services are specifically requested by the group's employer.
- You are a member whose non-network provider is not willing to accept Blue Shield's network contracted rate.

Examples of conditions and situations that may qualify for completion of care with your current provider who does not belong to your Blue Shield's health plan include but are not limited to:

- An acute condition requiring prompt medical attention and that has a limited duration (not to exceed the acute phase of the condition when care can be safely transferred to a provider contracting with your Blue Shield of California health plan).
- A serious chronic condition, for the period of time necessary to complete a course of treatment and to arrange for safe transfer of care to a provider contracting with your Blue Shield of California health plan (but not to exceed 12 months from the effective date of coverage).
- Pregnancy, including immediate postpartum period.

- Care for a child who is newborn to 36 months old (not to exceed 12 months from effective date of coverage).
- A surgery or other treatment that was previously recommended and documented by the provider to take place within 180 days of the effective date of coverage and which is authorized by Blue Shield of California.
- Terminal illness, which has the high probability of causing death within one year or less; this is covered for the duration of the terminal illness.

Mental health services

Continuity of care is also available if you are currently receiving services for a serious mental health condition. To obtain further information, please contact our mental health service administrator directly by calling their number on the back of your Blue Shield member ID card.

Dental services

If you are currently receiving services for a serious dental condition and you or your employer have purchased additional dental plan benefits from Blue Shield, you may be eligible to continue care with your current dental provider. To obtain further information, please contact our dental plan administrator, Dental Benefit Providers of California Inc., directly, by calling the customer service number on the back of your Blue Shield member ID card.

How the Continuity of Care Program works

If your provider leaves the network for your Blue Shield health plan, and you believe you qualify for our Continuity of Care Program, contact the Blue Shield Department shown on the back of your plan member ID card to obtain a Request for Continuity of Care Form or find the form on the Blue Shield website at blueshieldca.com/bsca/member-forms.sp. Complete the form and return it to us as instructed on the form.

We will contact your healthcare provider, who must agree to certain conditions required of contracted providers, as permitted by state law. If the provider does not agree to these conditions, then we will deny your request for completion of care with the provider leaving our network.

In those instances, our Medical Care Solutions Department will assist with the transfer of your medical care to a Blue Shield network provider, ensuring that reasonable consideration is given to the potential effects that changing providers may have on your medical condition.

If the provider agrees to the required conditions, we will authorize your continued care and notify you in writing of any special provisions or limitations.

Services covered under our Continuity of Care Program do not include benefits that are not otherwise covered under the terms and conditions of your Blue Shield health plan.
